CERTIFIED NO. 948965374

February 5, 1990

Mr. Brent Bastian Georgia-Pacific Corporation P.O. Box 80 Sigurd, Utah 84657

RE: UT-056-2P

Dear Mr. Bastian:

We would like to remind you that you need to submit a plan modification for your operations. Based on a recent field inspection in December, 1989, your operations do not conform to the approved plan of operations filed with this office in the following:

- Dumping of reject wall board on mining claims.
- 2. The seed mixture used for reclamation of disturbed sites.

In a recent phone conversation, you stated that you would submit a request for modification to your plan of operation during the week of January 19th. My staff will assist you if requested. Your request to modify the plan of operation should include:

- Legal location, mining claim(s) number(s) and name(s), and number of acres disturbed at the dump site..
- 2. Volume and nature of material.
- 3. Method used to dispose of the material and reclamation at the site.

letter does not authorize your dumping of the reject wall board, but only requests that you submit a plan modification. We will assess the plan secification to determine whether to permit dumping of the waste board.

present, your mining operations are not in conformance with your approved for operations. As permitted under 43 CFR 3809.1-7(c)(1), you are sted to submit a modification to your plan within 30 days of receipt of letter.

You provided a seed mixture to our office on December 21, 1989, that had been given to Georgia-Pacific. We requested that you try to identify what agency had presented this recommendation to you, so we could work with that agency to develop a recommended seed mixture. It will make your operations more cost effective to have only one mixture.

If you have any questions, please contact Doug Thurman in my office or Michael Jackson in the District Office.

Sincerely,

Area Manager

MJackson:ft:2-5-90
